SOFTWARE PROJECTS

My E-commerce, Full Stack Developer - React | Java

[GitHub](#) | [Website](#)

Testing account → customer@commerce.com 123456

- It is my e-commerce platform with everything I designed during my training process. It is still in the development phase and all data works dynamically. It is a customizable e-commerce system and you can benefit from it as open source on my GitHub page.
- Used Technologies – React Vercel Redux Axios Tailwind Reactstrap Router, Toastify, and many more libraries. Currently developing with Spring PostgreSQL for the backend.

My CV Project, Full Stack Dev. - React | Spring Boot

[GitHub](#) | [Website](#)

- It is a project that I developed to present my CV information to you online, in which I use all the front-end skills and libraries I know from A to Z. It is a project that will never be completed, in which I will integrate all my new knowledge.
- Used Technologies – React Vercel Redux Axios Tailwind Reactstrap Router Toastify and many more libraries.

CozumSigorta, Full Stack Dev. - React | Spring Boot

[GitHub](#) | [Website](#)

- It is a project in which I used my frontend skills for the Çözüm insurance company. It works with real data and developments continue.
- Used Technologies – React Vercel Redux Axios Tailwind Reactstrap Router Toastify and many more libraries.

BaseBALL, Full Stack Dev. - React | Spring Boot [GitHub](#) | [Website](#)

- It is a project in which I used my frontend skills for the \$BALL NFT company. It works with real data and developments continue.
- Used Technologies – React Vercel Redux Axios Tailwind Reactstrap Router Toastify and many more libraries.

Equinox Coffee, Full Stack Developer - React | Node [GitHub](#) | [Website](#)

- My Gift Project for the QR menu for my friend who owns a sweet cafe. In terms of content, it is a project that works with dynamic data connected to personal websites and API services.
- Used Technologies – React Vercel Axios Tailwind Reactstrap Router, Redux, Toastify, and many more libraries.

EXPERIENCE

Metaversel Projects, Remote - Technic Head /Web Developer 2022- 2023

- Worked as a tech guy, solving server problems as a server administrator building websites as a full stack developer, and making PR for NFT company.
- Managed project and web strategic planning for the entire team.
- Participated in pre-project analysis and technical assessments to validate the creation of user-friendly interfaces.
- Worked with different testing tools and frameworks, content management systems and cross-functional teams to smoothly complete projects.
- Designed layout and graphics to enhance the aesthetics and appearance of websites.

Freelance, Remote - Co-Founder/Web Developer 2018- 2023

- Managed design and planning throughout the development process of web-based applications.
- Estimated, implemented, and delivered web designs in a timely and efficient manner.
- Worked within a team-orientated environment to create, design, and develop complex web-based applications.
- Participated in pre-project analysis and technical assessments to validate the creation of a user-friendly interface.
- Managed project and web strategic planning for the entire team.
- Started my own company Groupghetto, and we are solving customer's problems within Blokchciai as Groupghetto. Thanks to our professional services, we bring together new-generation technologies.

TPI Composites Inc, Izmir - IT Coordinator Intern
07-09 / 2017

- Managed new system installations for timely distribution and minimized disruption to productivity.
- Performed thorough fault resolution and triage through export technical support, escalating complex issues to completion.
- Created and implemented effective technical solutions, growing business capabilities in line with company targets.
- Designed, developed, and installed a wide range of hardware including circuit boards and motherboards.

MediaClick, Manisa - Intern(Full Stack Dev- Server Administrator)
2017 - 2019

- More than 600+ projects worked on server control hosts. Publication recruitment, domain subdomain management, and hosting services were carried out.
- Worked in the testing department. Content control entries provided.
- Worked with mining rigs in crypto blockchain projects. Took part in the Crypto Coin software project.
- FolmCoin served as DevOps.
